SEA LION A VICTIM.

The handsome sea lion at the Zoological Park is dead.

The accidental explosion of dynamite, which occurred at the park Wednesday, was the direct cause of the animal's death. The explosion occurred about 200

death. The explosion occurred about 200 feet from the home of the sea lion and it is supposed that the concussion injured the beast internally.

To satisfy themselves on this point Dr. Raker, assisted by Drs. Styles, Dawson, and Palmer, of the Agricultural Department, held a post mortem examination yesterday and the examination proved the correctness of their theory that death was caused by the concussion.

The lion was secured by the Zoo people about two years ago and was regarded as one of the finest specimens in captivity and has attracted great attention. He was the only animal of the kind belonging to the park and for that reason his loss will be severely felt. The animal was skinned and the pelt sent to the Smithsonion Institution, where it will be mounted.

The special policemen in this city are preparing to file a formal protest with the Commissioners against the badges which were recently issued to them in lieu of the regular patrolmen's shield, all of which regular pair-omen's smed, all of which have been called in. The new device is a circle of white metal inclosing a star, with the inscription, "Special Policeman, D. C."

The car had reached a point on Missouri avenue, near Third street, when the colored woman reared in her seat, and with a gargling sound in her throat, pitched violently forward and fell to the floor of the vehicle.

There she writhed in apparent agony. The lady occupants of the car fled through the door. The Sixth precinct patrol wagon was summoned, and Policeman Walsh removed the woman to the Emergency Hospital, where it was found she was suffering from a severe spasm. She was revived with difficulty.
